

Trash Blows!

TARP & TIE YOUR LOAD
properly transport and dispose of trash

1. GATHER & LOAD

2. TARP & TIE

3. READY TO GO

Intentional or not, trash that blows out of vehicles or trailers becomes litter. Litter is carried by rain into roadside ditches and storm drains where it flows untreated to our local rivers, lakes and streams. Litter is not only ugly, litter pollutes our waterways.

Report Suspected Water Pollution: 325-5792

Trash Blows!

USE A BRICK & BUCKET
in the back of your pickup to contain trash
until it can be properly discarded

1. SECURE BUCKET

2. ADD BRICK

3. COVER & GO

Intentional or not, trash that blows out of vehicles or trailers becomes litter. Litter is carried by rain into roadside ditches and storm drains where it flows untreated to our local rivers, lakes and streams. Litter is not only ugly, litter pollutes our waterways.
